

France Investigating Report French Ford Violates ECA Pact

PARIS, Mar. 22.—The French Foreign Office is investigating a report in the European edition of the New York Herald Tribune charging the Ford Motor Co. with "apparent" violations of the Marshall Plan.

The paper said a French subsidiary of the Ford Co. had bought automobile parts under the European Recovery Program and resold them to Poland.

"As far as we can find out," a Foreign Office spokesman said, "the Ford Motor Co. has not received any parts under Marshall Plan aid."

\$10,000 Worth Shipped

The paper said the Ford Societe Anonyme, a French corporation, had shipped about \$10,000 worth of the parts to Poland.

An official of the plant was quoted by the newspaper as admitting having sent "a few scarce American-made parts," but insisting most of the material was of French manufacture. He also was quoted as conceding that "present orders from the Polish purchasing agent in Paris totaled 20,000,000 francs (about \$60,000)."

The article said the information had been turned over to the Economic Co-operation Administration office here. David K. E. Bruce, ECA administrator, and his immediate assistants met this morning and issued a statement on the reports.

ECA Making Investigation

"We were only informed of the information in the Herald Tribune article yesterday and are making an investigation. We have no comment since we are not in possession of the pertinent facts."

The newspaper said "such exports are in apparent violation of Article 1177D of the Foreign Assistance Act of 1948" which directs the American administrator to refuse delivery, insofar as is practicable, to participating countries of commodities which go into production of any commodity for delivery to any nonparticipating European country, which commodity would be refused export licenses to those countries by the United States in the interest of national security.

'Shanghaied' Sailor Listed As Suspected Deserter

ALAMEDA, Calif., Mar. 22.—The Navy has placed Seaman James Patrick Ryan in formal custody as a suspected deserter, a spokesman said today.

Ryan arrived from the Orient yesterday aboard the plane Marianne Mars—escorted but not then under arrest.

Ryan, who says he was shanghaied into the French Foreign Legion after missing his ship at San Remo, Italy, in July, 1947, was taken to the Yerba Buena Island Naval Station, where he will be held until his transportation to the Naval Hospital at Bethesda, Md., is arranged.

Formal desertion charges have not been filed against Ryan. He has insisted ever since his return to Navy jurisdiction at Tsingtao, China, that he did not desert.

The French Defense Ministry in Paris has stated officially that Ryan enlisted in the Foreign Legion. The Ministry denied that he was shanghaied into the service.

Boy's Finding of Nickel Leads to His Death

INDIANAPOLIS, Mar. 22.—A nickel and a penny ball led a little boy to his death today.

Seven-year-old Johnny Dunz found the five-cent piece on a street near his home. With two older brothers and a sister at his heels, he dashed around the corner to a confectionery store to buy toy balloons.

"I want an orange one," Johnny shouted in his excitement. The clerk gave him an orange one, and handed similar colored balloons to his brothers, Martin, 12, and Ray, 9, and his sister, Cora, 13.

As they ran from the store, the smallest of the four fell. The balloon lodged in his throat. Two neighbor women ran to the scene and applied artificial respiration.

Police and a General Hospital ambulance team arrived but were unable to save the boy's life.

Fishing Industry Aided

Iceland's new anti-inflation act provides financial aid to the fishing industry by compensating for losses from last summer's poor herring fishing, thus enabling the industry to continue operations.

LOST

BILFOLD, containing cash, valuable coin, and personal papers: lost Sat. between Cherrydale and Glebe rd. 0215. —23

BILFOLD, lady's between Holmeade and Riggs Bldg. 14th and Park rd. n.w. Reward. AD. 5305.

BILFOLD, lady's brown, in gift package, labeled "A. to the Y." 1000 blk. Sat. 2 p.m. March 19. RA. 1005. —23

MARYVILLE, TENN.—PLANE CRASH VICTIMS RECOVERING

—Three of the five Detroit residents who escaped death in the crash of their two-motored plane in the Great Smoky Mountains Friday left the hospital today and the other two planned to leave later. Here Stephen Walker, 46 (right), who walked 25 miles in 42 hours to get help, talks with James Hardy, 21, the pilot, who suffered a broken leg. Both of them left the hospital with Fred Hall, 42. Mr. Hall's wife made plans to return with Mr. and Mrs. James O. Hardy, the pilot's parents. Orville Rich, 38, the fifth member of the party will return with friends driving up from Florida. All except Mr. Walker were brought out of the mountains by helicopter yesterday. —AP Wirephoto.

2 Girls Stabbed 150 Times Each On Wild Party; Youth, 17, Held

SAN DIEGO, Calif., Mar. 22.—An explosion caused by young emotions mixed with alcohol was blamed by investigators today for the multiple stabbing of two 16-year-old girls.

Both are in serious condition from hundreds of stab wounds.

Salvador Colabelli, 17, was booked of suspicion of attempted murder and assault with a deadly weapon. Two other boys, 17 and 16, were held by juvenile authorities for investigation.

The stabbing came as the climax to a drinking-petting party in two adjoining shacks in an abandoned trailer court Saturday night.

Police quoted Colabelli as saying he became jealous when the boys traded snacks and girls became angry.

Zionists Told Arabs To Be Paid for Land

The state of Israel will pay the Arabs who do not return to Palestine for the land they abandoned, Dr. Abraham Granovsky, head of the Keren Kayemeth LeIsrael of Jerusalem now on a visit to the United States, declared yesterday.

"It is not our function to rob the Arab landowners," Dr. Granovsky told a meeting of the Jewish National Fund at Hotel 2400 yesterday. "We will not build our future on robbery."

The speaker, head of the World Jewish National Fund, which serves the Zionist movement in acquiring and reclaiming land in Palestine for the Jewish people, asserted the Israeli government regards itself as trustee for the land. The government will pay prices based upon the returns of the land and not on exaggerated values, Dr. Granovsky said.

The National Jewish Fund hopes to raise \$100,000,000 this year for the Israeli government. About \$35,000,000 of this amount will be set aside to purchase the land needed, the remainder being used for other portions of the program.

Dr. Walter C. Lowdermilk, formerly of the Agriculture Department's Soil Conservation Service, was presented with a citation by Dr. Granovsky on behalf of the Keren Kayemeth LeIsrael for his "beneficent and unselfish devotion to the sacred ideal of the redemption of the soil of Israel and the restoration of the people of Israel."

'48 Second Best Safety Year For B. & O., Meeting Told

BALTIMORE, Mar. 22.—President Roy B. White of the Baltimore & Ohio Railroad told an executive safety conference of company officials today that 1948 was the road's second safest year, with 7.09 injuries for each million man-hours worked.

"The railroads provide the safest form of transportation for the public," he said, "but there are still too many injuries to the people who make that safe transportation possible. . . . We must keep in mind that most personnel injuries are avoidable."

Ned H. Dearborn, president of the National Safety Council, commended the B. & O. for its safety record.

At the home of his mother, Mrs. Helen Rogers Reid, publisher of the New York Herald Tribune, Mr. Reid said:

"Yes, Miss Stewart and I broke off our engagement about a month ago. . . . As for my week-end meeting with Miss Scott, it grew out of my flying up to St. Andrews to visit a mutual friend at whose home she was staying. There's nothing like romance in the incident."

In Boston, Miss Scott said "I only just met Mr. Reid this winter and we've scarcely had time to become more than friends."

Policeman Traps Youth in Store, Finds Himself Snared by Window

A policeman squeezed fearlessly through the same window that a much smaller burglar suspect had used last night and got his man—but it took a store owner and a call to the Fire Department to get him out.

Police received a telephone call about 10:30 p.m., informing them that some one had climbed to a shed roof and entered a second-story window at the Riverside Pharmacy, 2125 E street N.W.

Accident Investigation Unit cruiser, carrying Pts. J. C. Vinson and Bradford McClendon, was nearest to the scene and went to investigate. The two policemen climbed atop the shed and Pvt. Vinson, being the smaller, volunteered to go through the window.

Inside he found a 16-year-old colored boy, who gave up meekly, but the policeman's troubles were just beginning. Unable to get out and unable to reach the store

Man Seized in Knoxville In Virginia Couple's Killing

TAPPAHANNOCK, Va., Mar. 22.—David J. McCallard, Jr., arrested in Knoxville, Tenn., by the FBI, will be returned here to answer charges of murder in the shotgun slaying of his sister and brother-in-law as soon as practicable, Commonwealth's Attorney Emory L. Carlson said today.

Federal agents arrested him late yesterday as he walked along a Knoxville street with his wife.

His wife, the FBI said, told them she didn't have any knowledge of the slaying of Frank Spindle, 44, and Spindle's wife, Helen, 38, at their Essex County (Va.) home at Loretto.

McCallard, arrested on a charge of illegal flight to avoid prosecution, was held in bond of \$20,000. He was identified by the prosecutor as a convict who had served time in North Carolina for housebreaking and a former soldier who was given a dishonorable discharge. He has been charged with the double slaying.

A search for Mrs. Spindle's brother began as soon as the bodies were found in the apartment above Mr. Spindle's garage on March 11. He had been visiting at the Loretto home for several weeks.

Rules Unit Delays Action On Oleo to Thursday

House Rules Committee action on the oleomargarine tax repeal bill was postponed today until Thursday.

Chairman Cooley of the House Agriculture Committee said the measure should come up for House consideration next Tuesday or Wednesday.

The bill would lift Federal taxes on margarine, but ban the interstate shipment of the colored variety.

Dr. Millikan Receives President's Merit Medal

PASADENA, Calif., Mar. 22.—Dr. Robert A. Millikan, retired executive head of the California Institute of Technology, received a birthday present from President Truman yesterday.

Dr. Millikan, who is 81 today, was presented with the Presidential Medal of Merit by Air Force Secretary Symington.

Similar citations, highest decorations given by the Government for civilian wartime service, were given to his son, Dr. Clark B. Millikan, and to Dr. Louis G. Dunn.

Blotters Warn Drivers of Blots On Safety Record

Motorists of the District today are receiving the first of 175,000 blotters launching a safety campaign by the Commissioners' Traffic Advisory Board.

A. Julian Brylawski, chairman of the board's Education Committee, said the blotters warn motorists that ignorance of the law "may cause a blot on your driving record." Each blotter contains the slogan, "Don't Learn Traffic Rules by Accident." They are being distributed to license tag applicants, and also at the two District inspection stations.

Officials said the campaign is aimed at preventing the loss of lives through failure to observe traffic laws and regulations.

Soviet Exports to U. S. Drop 75 Per Cent in Month

Russian exports to the United States dropped 75 per cent in January to the lowest point since the United States slapped a ban a year ago on shipments of industrial goods of "war potential" to the Soviet.

The Census Bureau, reporting this yesterday noted that Russian shipments of two strategic materials the United States is stockpiling against a war emergency—manganese and chrome—dropped to \$1,200,000 in January from \$2,700,000 in December.

Officials said this might indicate the Russians were starting to carry out reported threats to curtail Soviet shipments of manganese and chrome, but that single month's developments could not be considered conclusive.

Total Russian shipments to this country in January were \$1,600,000, a \$5,000,000 decline from December. American shipments to Russia fell 60 per cent, from \$500,000 in December to \$200,000 in January.

Campbell Bequeaths Part Of Estate to First Wife

LONDON, Mar. 22.—Sir Malcolm Campbell, the speed king, who died last New Year's eve, left part of his \$171,775 (\$887,100) estate to his first divorced wife, but none to his second.

His will was published today.

His first wife, Lady Dorothy Campbell, who was divorced by the world speedboat recordholder in 1940, received \$500 (\$2,000) plus an annuity of \$400 (\$1,600). Aside from three small bequests to his racing car mechanic and two servants, the rest of the estate went to his son Donald and a daughter, Jean, born of his first wife.

Lady Betty Campbell, whom he married in 1945 and divorced a year later, charging adultery with a French count, was left nothing "as she has adequate means of her own."

Circulation Managers Open Pittsburgh Session

PITTSBURGH, Mar. 22.—Newspaper distribution problems were discussed yesterday as the Interstate Circulation Managers' Association opened its 32d annual two-day spring conference.

Among the speakers were Grove Patterson, editor in chief of the Toledo Blade, and Dr. George W. Crane, newspaper columnist. Round table discussions, occupied much of the time of the 150 newspaper representatives from Pennsylvania, Maryland, New Jersey, Delaware, West Virginia and the District of Columbia.

7 Captured in Housebreakings Range From 7 to 15 Years Old

Youthful housebreakers, one of whom is barely school age, gave police a full evening yesterday, including a rooftop chase which netted a 14-year-old suspect.

In another incident, one of the suspects leaped 15 feet from a fire escape and kept on running, but was arrested later.

Arrest of seven, all colored, ranging in age from 7 to 15, holds the answer to at least a dozen recent housebreakings, authorities said today.

Tipped off by a passing pedestrian, Pts. Albert F. Fielder and Clarence S. Muse got to a shoe repair shop at 642 G street N.W. about midnight, in time to pick up one boy they described as a look-out. Inside the store, they said, another youth saw the arrest, climbed out a skylight and took off across the rooftops.

Pvt. Fielder went up a fire escape, chased the boy across at least four rooftops and caught him hiding behind a ventilator. The two admitted entering a barber shop at 727 T street N.W. earlier in the evening and taking \$12 in change, police said.

Earlier, a young band of five juveniles was rounded up after one of them had been caught in the Fulton Marine Supply Store, 803 Maine avenue S.W., by the owner, S. King Fulton.

Mr. Fulton was working in a second-floor office and in investigating a downstairs noise surprised three boys. As they fled, he grabbed one, who later implicated the others. They have admitted, police say, at least 10 other housebreakings.

Mr. Fulton told police one of the two youths who fled, ran to a fire escape door and then leaped off the platform to the ground about 15 feet below.

Juvenile papers have been filed against all seven arrested last night, charging housebreaking.
